Providing protection against transport-related losses, this voyage policy provides a haven for shipping companies and couriers because it protects them from costly potential losses while transporting goods by water.

# MACHINE INSURANCE

Machinery breakdown insurance provides a security cover to the machines used by factories and industries. This insurance covers accidental breakdown and physical damage of the machinery, the cost of repairs or replacement of the damaged machine parts. ## **OFFICE INSURANCE**

Office Insurance offers comprehensive coverage for the risks associated with threats which can impact office operations. It covers not only the office property, but also the loss of money or any cheating done by employees. The insurance is usually offered as office package policy to cover the risks arising from various untoward incidents.

## **HOTEL INSURANCE**

## **HOUSE INSURANCE**

Buying a house is the single largest investment for most people. It is a herculean task that involves a lot of planning, saving and research. However, The fact that you can own a house without a home insurance policy makes us neglect the concept of home insurance on the whole. Most of us feel that it is a waste of money as it is a certain investment for an uncertain cause. Nevertheless, with the increase in natural calamities, it is a good idea to take up a little expense to avoid a huge financial setback in the future.

# **SHOP INSURANCE**

A shop insurance policy is a specially designed insurance policy that provides coverage for a shop's contents and the property.

This shop insurance for small to medium-sized shops covers burglary along with any mishaps due to natural calamities, accidental fire, etc. just like fire insurance. Shop Insurance plans offer protection to the insured against financial crisis in case of some accident in his/her shop or other related incidents.

# **FLAT INSURANCE**

Flat insurance offers coverage to a house and its content from unforeseen circumstances such as damages caused by natural calamities (earthquake, fire, flood, storm, landslide, etc.) and man-made activities (theft, burglary, terrorism, riot, etc.). A flat insurance policy cover your Property to ensure it always stands strong to give you the shelter and protection you need. Just by taking fire precaution or putting door locks, your house isn't safe.

## **FIRE & PERILS INSURANCE**

Standard fire and special perils insurance is a traditional cover that offers cover against fire and allied perils which are named in the policy.

The policy can cover building (including plinth and foundation), plant and machinery, stocks, furniture, fixtures and fittings and other contents.

## **CATTLE INSURANCE**

Cattle are an important part of Indian economy. Marginal, small and medium farmers earn considerable portion of their income from cattle rearing.
